Readers' comments

'I would like to congratulate you ... [on your] excellent book on EC 7! I think it is what is needed for practising designer, also structural designer. I am sure I am not only person enchanted by your book. But I believe that it needed ... months of hard work.' – Bolesław Kłosiński (Road and Bridge Research Institute, Poland)

'... a beautifully written and presented book' – Yul Tammo (Cornwall County Council)

'... read more about it in your splendid book' – Peter Gilbert (Atkins)

'Many congratulations on the book – a copy of which I am now the proud owner of! It really looks excellent and I am eager to start reading the content in detail' – Dr Ian Smith (Edinburgh Napier University)

'My copy of your book has been stolen already (well borrowed by our new engineer)' – Richard Dinnis (ArcelorMittal)

'The text was refreshingly clear and well written, and must have been well checked as there were very few errors' – Andrew Shackleton (Asgard Publishing Services, copy-editor)

'The appearance of Decoding Eurocode 7 is both welcome and timely ... The commentary and examples are not restricted to ... the UK, giving the book wide appeal and relevance ... I have no hesitation in recommending Decoding Eurocode 7 to both students and practitioners as an authoritative, practical text, representing excellent value for money. It can be taken in large doses or small and is certain to alleviate most EC7 headaches.' – Tony Bracegirdle (Geotechnical Consulting Group)
